

0603 Multilayer Chip Inductors, High Frequency Applications

Special Features

- Monolithic construction provides high reliability
- High Q characteristic
- Ceramic material construction provides very stable electrical characteristics
- Operating temperature -25 to +105°C
- Current to cause 20°C temperature rise
- Tape & reel packaged 4000/reel

Typical Applications

- Small cellular phones
- PDAs
- Pagers
- Handheld organizers
- High-frequency wireless communication devices
- Notebook computers
- Printers
- Network cards
- Industrial electronics
- Entertainment electronic devices
